01 · WHO WE ARE

Tap fast. Win am.

Tap Am is a live tapping game for Nigeria. Players join pools, tap as fast as they can against the clock and other players, climb 100 ranks and win prizes. It is loud, quick and proudly Naija.

The brand should feel like a game show on your phone: bold colour, chunky shapes, big italic type, a cheeky Pidgin voice — and total clarity whenever money is involved.

Personality

Playful
Banter, emojis in moderation, Pidgin jokes. Never mean.

Fast
Short words, big buttons, one idea per screen.

Proudly Naija
Lagos slang, local food, local names, ₦ everywhere.

Straight about money
Clear fees, clear rules, no promises of income.

TAGLINE

Tap ammm make you chop moneyyyy

The tagline is written the way it is said — stretched letters and all. On the landing page it appears as “tap ammm make you chop moneyyyy”; the share image uses “Tap amm make you chop big moneyyy”. **Pick one spelling and use it everywhere** (we recommend the landing-page one).

Important: the tagline is a joke, not a promise. Our Terms say slogans are not promises of income or prizes. Never use it next to claims like “guaranteed”, “easy money” or “earn daily”.

Our wordmark

"TAP" in heavy italic, "AM" knocked out of a rounded box. The slant is motion — a finger mid-tap.

- **Primary (light backgrounds):** black TAP, Logo Purple **#AA0FEA** box, white AM.
- **Reverse (dark backgrounds):** white TAP, purple box, white AM. This is the version in the app header.
- The logo is drawn as shapes, not typed. Always use the files in the kit — never retype it in a font.
- Say it "Tap Am". Write it **Tap Am** in sentences (capital T, capital A, one space).

03 · LOGO VERSIONS

Three boxes, one rule

Purple is the default. The green and blue boxes exist for sponsor co-branding and backgrounds where purple clashes. Use one version per piece.

Primary · purple

Primary · green box

Primary · blue box

Reverse · purple

Reverse · green box

Reverse · blue box

One colour · white (photos, embossing)

One colour · black (fax, stamps, 1-colour print)

Which one?
Light background → primary. Dark or photo → reverse. Only one ink available → one colour.

Give it room

Clear space: keep empty space on every side at least **X = half the height of the AM box**. Nothing else — text, edges, other logos — goes inside it.

Smallest on screen
96 px wide (logo) · 24 px (finger mark)

Smallest in print
25 mm wide (logo) · 7 mm (finger mark)

DON'T

Stretch or squash it

Recolour the box

Rotate it

Black logo on busy colour

One finger, ready to tap

The finger is our shortcut — app icon, favicon, stickers, loading spots and anywhere the full logo won't fit.

- App icon: white finger on Mark Green **#006012**, rounded square. Never redraw it.
- On its own, the finger can be Mark Green, Tap Green, Ink or white.
- Don't put the finger next to the full logo — they're alternatives, not partners.

Files: 02-mark (SVG + PNG), 03-app-icon (favicons 16–48 px, 192/512 icons, maskable icons, Apple touch icon, 96 px notification badge, 1024 px master).

Balance: about 60% Grape gradient, 25% white cards and panels, 10% Tap Green for actions and wins, 5% accents. Tap Green is precious — use it for the one thing you want people to press or celebrate.

Print: CMYK values are screen conversions. Tap Green and Grape are brighter on screen than ink allows — ask the printer for a proof.

Sweet-sweet colours

Accents colour cards, badges, characters and tier labels. Each comes with a darker “shadow” used for the chunky bottom edge of cards and buttons.

Tier colours

Lapo free

Mapo paid

Nepo top tier

Nepo players can choose other backgrounds (Ocean, Lagoon, Jungle, Sunset, Bubblegum, Gold, Cocoa, Crimson, Midnight). Their values are in 05-colours/colours.json. Marketing always uses Grape.

Barlow, loud and clear

Display · headlines, numbers, buttons

Barlow Condensed

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz 0123456789
₦

Use **Black Italic (900)** or **ExtraBold Italic (800)** for headlines and big numbers; **Black (900)** upright for buttons; **Bold (700)** for small labels. Set tight: line height 0.9–1.05.

Body · everything people read

Barlow

ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz 0123456789 ₦

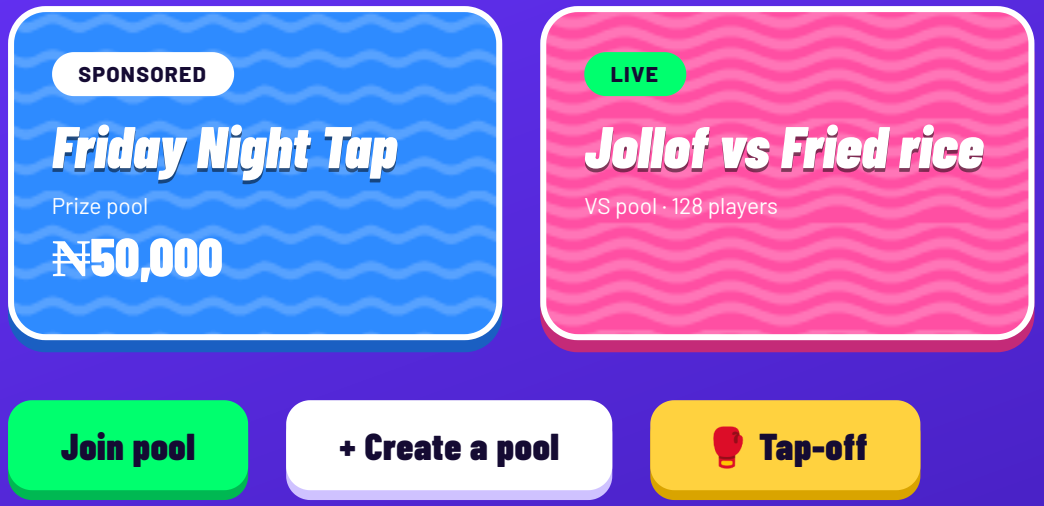

Medium (500) or **SemiBold (600)** for body text; **Bold/ExtraBold** for emphasis and small caps labels. Line height 1.4–1.5. Never go under 13 px on screen.

ROLE	FONT	WEIGHT	SCREEN SIZE	EXAMPLE
Hero headline	Barlow Condensed	900 italic	40–64 px	***Tap fast, chop prize***
Section title	Barlow Condensed	900	22–28 px	**Live pools**
Button	Barlow Condensed	900	17–20 px	**Join pool**
Body	Barlow	500–600	15–17 px	Join a live pool and tap pass everybody.
Label / caption	Barlow	800 caps	11–13 px	**PRIZE POOL**

Both fonts are free under the SIL Open Font License (06-fonts/OFL.txt) — fine for print, web, apps and ads. Fallbacks: Arial Narrow / Arial.

09 · SHAPES, CARDS & BUTTONS

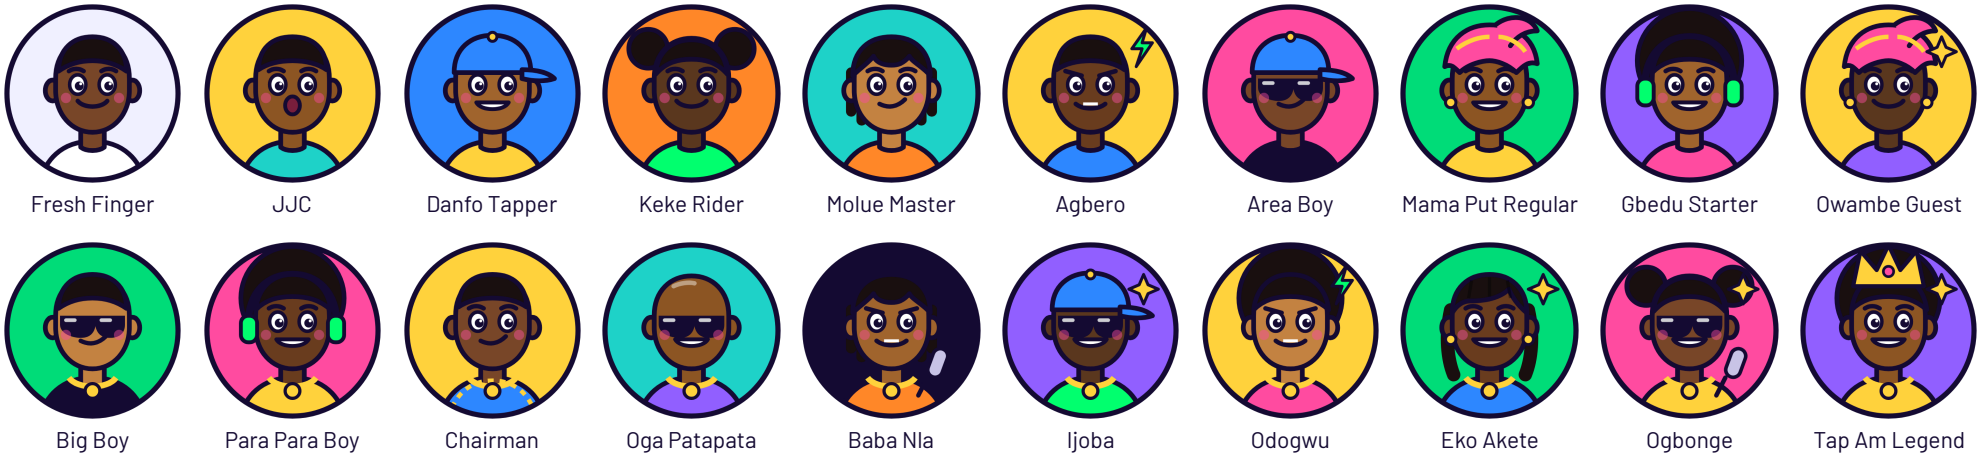

Chunky like a game

- **Cards:** accent colour + pattern overlay, 3 px white border, 18 px corners, hard 6 px shadow in the darker shade.
- **Buttons:** 12 px corners, Barlow Condensed 900, a solid 5 px "ledge" shadow underneath. Tap Green for the main action, white for secondary, Sunny for special.
- **Text on colour:** white with a small dark drop (0 1.5 px 0 rgba(0,0,0,.6)) so it reads on any accent.
- **Corners:** 18 px cards · 12 px buttons & inputs · 999 px pills. Nothing sharp.
- **Shadows** are flat and offset straight down — no soft blurry glows.

Meet the tappers

Twenty rank characters — one for each tier, from Fresh Finger to Tap Am Legend. Use them in social posts, rank-up moments and merch. Always show them in a circle, never cropped or recoloured.

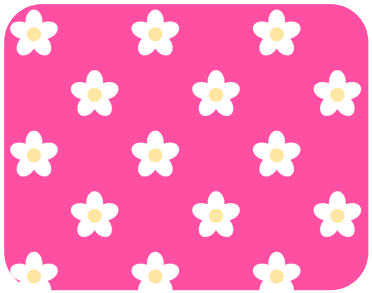

Badges: a star means most taps, ₦ means most prize money won. Stickers and badges use a thick Ink outline and flat fills.

Tap pads with texture

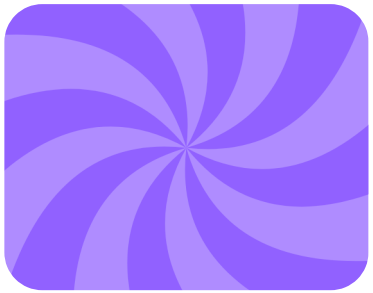

Ten seamless patterns sit on top of a colour at 20% white. They dress up cards, tap pads and social posts. Use one pattern per piece, and keep text off the busiest ones (Leopard, Zebra, Cow).

12 · VOICE & TONE

Talk like a Lagos friend

Light Pidgin, short sentences, a wink. We sound like the friend who hypes you up — and who tells you the rules straight.

MOMENT	SAY
Call to play	**“Tap fast, chop prize.”** · “Run am back!”
Win	**“Odogwu! You win am!”** · “₦1,000 don land for your wallet!”
Loss	“No prize for you this time — run am back!”
Error	“That page no load. Try again.” (say what to do next)
Money rules	Plain English: “Money you add can’t be withdrawn. Only winnings can.”

DO

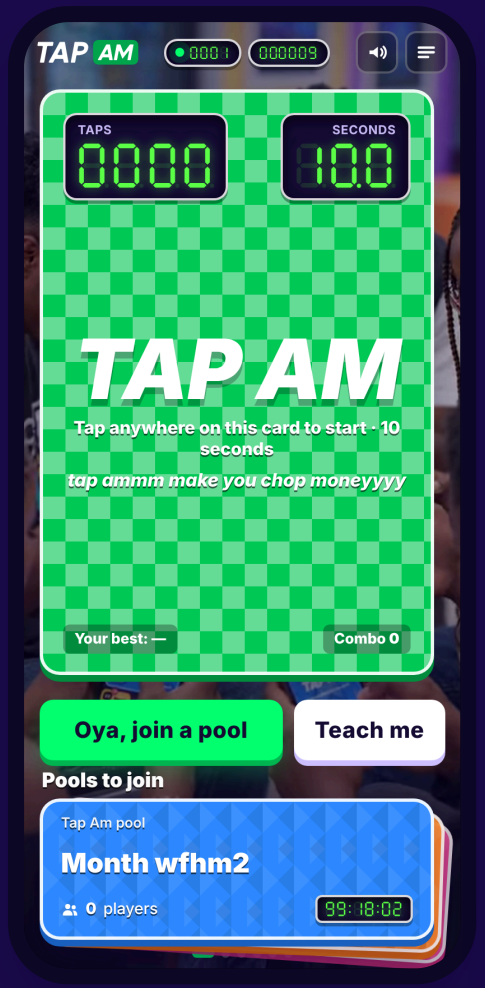

- Use ₦ with commas: ₦10,000 (not N10000 or 10k naira).
- Name the tiers: Lapo baby, Mapo baby, Nepo baby.
- Switch to plain English for fees, refunds, age (18+) and legal notes.
- Celebrate players — rank-ups, badges, top winners.

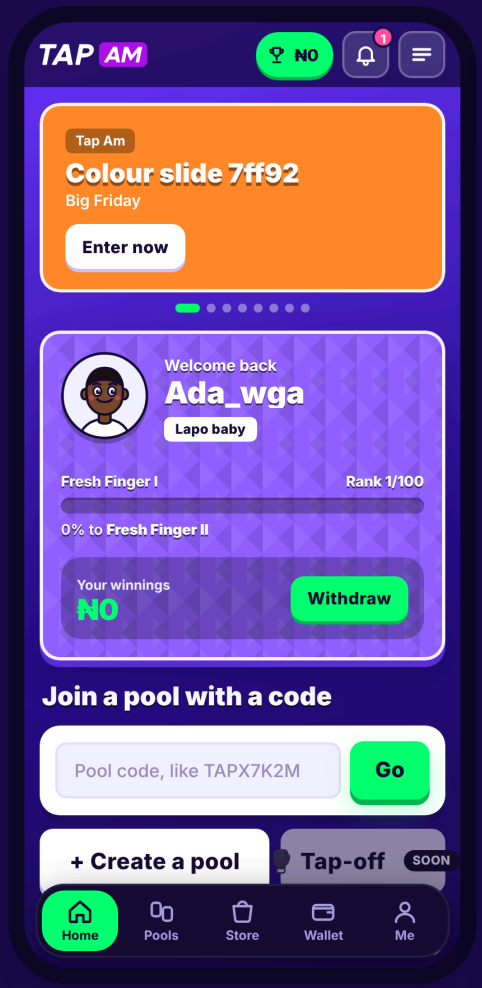

DON’T

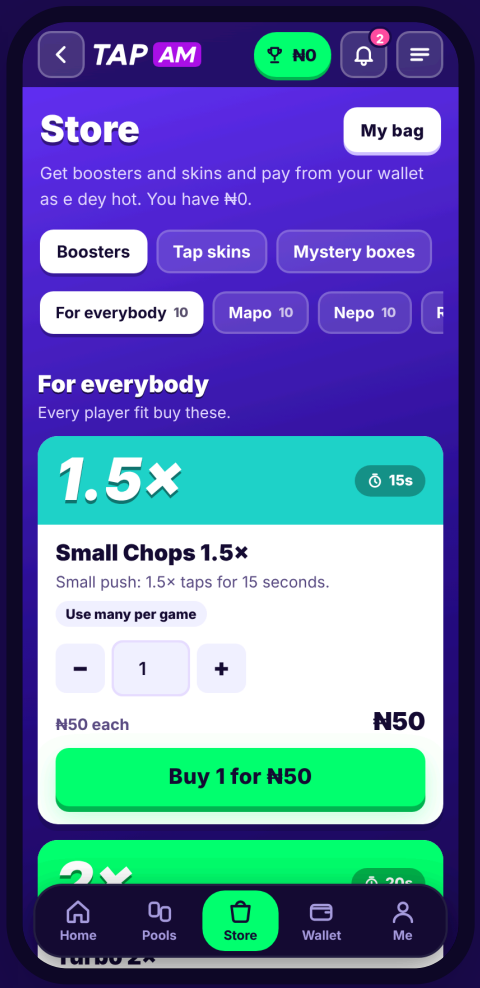

- Promise income: no “guaranteed”, “easy money”, “earn daily”, “get rich”.
- Target or show anyone under 18 in money promotions.
- Mock other tribes, religions, players or competitors.
- Overdo it: one Pidgin line per message is plenty.

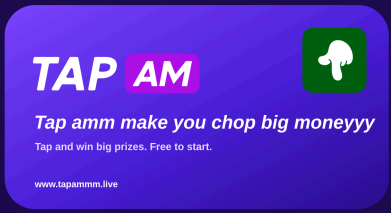

Money stakes and paid prizes are still under legal review. Marketing that talks about cash prizes should be checked by your lawyer before it goes out.

How it all comes together

Link-share image (1200 × 630). Every page of the site shares with this image.

- Grape gradient background, white cards, one green action.
- Big italic numbers for prizes and taps.
- Characters and badges for every win moment.
